Chair's Message

This monthly meeting comes with pretty great news for our department staff. In this issue of **ME_connected**, we are pleased to announce the new positions to be administrated by our staff for their experience and qualifications. Such news proof the leadership of our staff in various positions.

The way to Go!

Dr. Mohamed El-Gamal
Professor and Chairperson

New Positions announced

The department is delighted to announce the staff members who have been nominated for new positions relative to their outstanding work performance.

- ✚ **Prof. Mohamed Elhalwany** has been named the **Executive Manager** for the special program "Chemical and Environmental Engineering (CEE)" with credit hours system.

The Department of Mathematics and Engineering Physics congratulates **Prof. Mohamed Elhalwany** for his new position.

- ✚ **Dr. Ahmed Hazem Eltanboly** has been named the **Vice Executive Manager** for the special program "BioMedical Engineering (BME)" with credit hours system.

The Department of Mathematics and Engineering Physics congratulates **Dr. Eltanboly** for his new position.

Department News

- 
- The Department announced the Timetable schedule for the Preparatory students. The study this semester will be practiced through the Hybrid learning manner. The Hybrid learning is portioned into three ways: Normal classes attendance, online learning, and self learning.
 - The department is delighted to announce a series of seminars starting the coming Fall-2020. The schedule for such seminars will be advertised soon and will be hosted in the department seminar room. Some drinks and snacks will be served.
 - Other activities will be announced later to cover our academic role towards both graduate and undergraduate students.
