During her stay, Jane joined the electrophysiology team in our cath. lab. She observed a large number of procedures (ablations, implantations, lead extractions), had the possibility to discuss cases with colleague cardiologists, and also experienced how we perform device follow-up. It was a great pleasure having Jane Aboulenein in our department.

The EHRA Observational Training Fellowship offers an excellent opportunity for clinical observation and exchange of experience within the field of arrhythmias and cardiac pacing.

Kind regards,
