Intra-lipids as potential therapy for neurotoxic effects of rotenone

By

- Eman A. Abdel-razek;
- Sameera S. Hamed;
- Amal A. El-Bakary;
- Adel M. El-mansoury

Amal El-Bakary

The aim of drug testing is not to trap and punish people who use drugs. It is, in fact, is to prevent drug dependence and to help drug dependent people become drug free.

FROM DRUGS TO DRUG FREE

What is a pesticide

Any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest.

The term **"Pesticide"** is an umbrella term for pest management products and includes insecticides, herbicides, fungicides, rodenticides and bactericides.

PowerPoint interface showing a slide with a yellow smiley face plush toy sitting on a mug with various emojis. The slide is titled "Keep on Smiling!". The PowerPoint ribbon includes options like File, Home, Insert, Design, Transitions, Animations, Slide Show, Review, and View. The slide content includes a large image of the smiley face plush toy and a smaller version of the same image in the bottom right corner.
