

Ghada Ezzat Ibrahim Eladawei

Professor of Clinical Oncology& nuclear Medicine

**List of publication**

1-Do we need to treat patients with Glioblastoma Multiforme with radical chemoradiotherapy if they had biopsy alone? Northampton Experience. Forum of Clinical Oncology ,issue 2, vol.3, p 28-34, June 2012.

2-Treatment of elderly breast cancer: Mansoura Experience

Pan Arab Journal of Oncology, vol.5 issue 2 , P 16-21,June 2012.

3- Second Line Treatment With Oxaloplatin, Folinic Acid and 5-Fluorouracil (Off) In Gemcitabine Refractory Advanced Pancreatic Carcinoma. The medical journal of Cairo university, Vol. 80 No.1, P271–P275, june 2012.

4- B-Catenin and Matrix Metalloproteinase-7 Expression in Deep Fibromatosis: Impact on Local Recurrence. Egyptian Journal of Pathology,Vol. 32,Issue 1,P 26-32, July 2012.

5- Do Concurrent Chemoradiotherapy With Docetaxel Followed by Docetaxel Consolidation Chemotherapy Improve Outcome Of Anaplastic Thyroid Carcinoma Patients? Forum of Clinical Oncology, issue 2, vol.4, p 24-30, June 2013.

6- Preoperative Capecitabine and pelvic radiation in locally advanced rectal cancer: preliminary results (Mansoura Experience) Translational Gastrointestinal Cancer, 2 (3): 112-117, 2013.

7- Low risk trophoblastic neoplasia: outcome after initial treatment with single agent intramuscular methotrexate and oral folinic acid.

The medical journal of Cairo university Vol 82 March 2014.

8- Re-irradiation in recurrent rectal cancer: Single institutional experience

Transl Gastrointest Cancer 2014; 3(2):73-79.

9- High dose conformal radiotherapy in stage III non-small cell lung cancer: A feasibility study. The medical journal of Cairo University Vol 82 March 2014.

10-Adjuvant Chemo-Radiotherapy versus Chemotherapy in Pancreatic Carcinoma. RESONCOL.2017.1093.1027

11- Prospective evaluation of weekly concomitant tumor bed boost with three-week hypofractionated whole breast irradiation in early breast cancer. J Radiat Oncol (2017) 6:93–99.

12- Prognostic significance of mutant IDH1, CD133 and  $\beta$ -catenin immunohistochemical expression in glioblastoma multiforme. Egyptian Journal of Pathology, vol. 38(1):27-34, July 2018.

13-Local Consolidation Therapy versus Observation for Oligometastatic Non Small Cell Lung Cancer Patients: Phase II Randomized Trial. Journal of Cancer Therapy, 2018, 9, 925-940.

14- The Lower Peripheral Blood Lymphocyte to Monocyte Ratio Following Completion of First Line Chemotherapy Is a Risk Factor for Predicting Relapse in Patients with Diffuse Large B-Cell Lymphoma. Journal of Cancer Therapy, 2019, 10, 53-68.

15- Impact of Neoadjuvant Chemotherapy on Breast Cancer Biomarkers: A Guide for Further Adjuvant Treatment. Cancer Research Journal 2019; 7(1): 8-17.

16- Management of stage IB grade III endometrial cancer. Single institute experience  
Journal of Cancer Therapy, 2019, 10, 290-304.

17- Localised prostate versus whole pelvic irradiation in high risk prostate cancer, single institute experience. Cancer Research Journal 2019; 7(1): 18-24.

18-3D conformal re-irradiation with Temozolamide for recurrent Glioblastoma: a prospective cohort study. Journal of Cancer Therapy, 2019, 10, 619-631.

**Published Book Chapter in Current Topic in Medicine and Medical Research 2020.  
Local Consolidation Therapy versus Observation for Oligometastatic Non Small Cell Lung  
Cancer Patients: Phase II Randomized Trial.**

**Reviewer in Journal of Pharmaceutical Research International 2021.**
