تنبيه هام

- الطالب الذي تتجاوز نسبة غيابه عن الدروس الإكلينيكية ٣٠% سيتم حرمانه من دخول امتحان الترم الإكلينيكي وذلك حسب التعليمات واللوائح المنظمة وعليه يلزم حضور ٤٢ يوما على الأقل (وسيتم مراعاة الاجازات الرسمية) وعليه لا يتجاوز الغياب ١٨ يوم.
- يلتزم الطلاب بالتقدم لامتحانهم في موعد الراوند المخصص لهم.
- الطلاب المتخلفون عن الحضور للامتحان او المتجاوزين لنسبة الغياب سيتم حرمانهم نهائيا من دخول امتحان اعمال السنة حسب لوائح الكلية.
- الاعذار لا تقبل الا عن طريق أ.د/ وكيل الكلية لشئون التعليم والطلاب

المحاضرات النظرية :

▪ المحاضرات المجمععة ٨,٣٠ - ١٠ ص ، من السبت - الأربعاء ، يتم القاؤها في مكان المتحف بالكلية.

التدريب الإكلينيكي: ١٠ - ١٢,٣٠ ظ ، مدرج أقسام: ٩ - ١٠ - ١٥ - ١٨ - والعيادات الخارجية - والمتحف بالكلية.

Student's Guide

Dear students ,

Welcome to the final turn of the long marathon and a special welcome to the OBS & GYN dept. In fact, you should study this subject with more interest. Sometime, you will be a wife / a husband and we wish you will be a mother / a father. So, most of our subjects are directly related to your personal life.

Not only that, but you as a general practitioner should know the common obstetric & gynecologic complaints and you should decide when to refer the patient to a specialist

But , why there is always a high solid barrier between the Dept and the students

We think the main reasons may be;

- Our image is drawn by others not by ourselves
- The cumulative knowledge of one year is studied and revised in a couple of months
- To listen to a junior inexperienced unripe (teaching person) in a private class is more convenient and comfortable for the student resulting a student with very shallow knowledge & experience
- The general culture and atmosphere of the country
- Huge students number
- Deficient teaching tools
- Vanishing respectation

So , how to bypass this dilemma?

As this book is directed to the student, so the role of the student is

- Stop listening to others: make your own experience
- Attend clinical rounds: you can learn from any one at least something
- Attend theoretical lecturers: you should realize that you are dealing with the highest qualified and the heaviest trained staff in this specialty in our local community
- To learn , to know and to study are aims & not vehicles
- Speak to your tutors
- Respectation
- Honesty with the self

How to improve our results ?

- Regular attendance
- Recollect the missed lessons
- Don't delay your study
- Don't listen to the depressive voices
- Catch the best from each tutor
- Remember that you will be responsible for lives of others, and sometime there will be someone at risk of death under your supervision
- Study from a respectable source
- Learn from the bright stars not from the dark stones
- Search , ask, negotiate ,debate ,
- Believe in yourself

About our department :

- Initiated on 1967
- No of beds : 132
- Services:
 - 24912 patient /year
 - 8975 Admission cases/year
- Five working groups
- 54 staff members
- More than 30 assistant staff members

Places in the main MUH buildings

- Dept 9: 3rd floor MUH
- Dept 10: 3rd floor MUH
- Dept 15: 4th floor MUH
- Dept 18 : 3rd floor MUH
- Emergency unit " 1st floor
- Fertility care unit
- Operative theater

Obs & Gyn Mansoura university hospital:

- Outpatient Obst clinic : Obs & Gyn University Hospital
- Outpatient Gyn clinic : Obs & Gyn University Hospital

Places in the faculty of Medicine

- OBS & GYN museum
- Skill Lab

Sources of study:

- Dept Obs Book
- Dept Gyn Book
- Ten teachers book
- Dept practical book
- Dept MCQ Book
- Other text books

Developing steps for the sources of study

- Revision updating and summarization of the Dept Books.
- A new book for the museum, instruments and skill lab.
- A new CD for the museum instruments & skill lab.

Plan of study:

- Theoretical lectures: according to the place & time plan shown in appendix I

Clinical training :

- 3 hours daily for 5 days / week for 11 weeks (plus one week for exam)
- Clinical training will be held at:
 - Obs outpatient clinic
 - Gyn outpatient clinic
 - Fertility care unit
 - Inpatient wards
 - Museum : jars & instruments
 - Skill lab

This is shown in appendix

Items for museum training & skill lab are shown in appendix

Exams & marks

- Midterm exam multi station 80 marks
- Log book activities 10 marks
- Self learning activity: 10 marks
- Written paper 150 marks
- MCQ : 100 marks
- Clinical exam : 75 marks
- Oral exam : 50 marks
- Skill Lab exam: 25 marks

Midterm exam:

- Will be held at the end of the clinical round as shown in the calendar
- 16 stations 5 marks for each:

○ 2 Obst cases	○ 2 Obst questions
○ 2 Gyn cases	○ 2 Gyn questions
○ 2 Jars	○ 2 instruments
○ 2 models	○ 2 stations: photos- diagram- contraception- others

- All questions will be related to clinical knowledge
- This is candidate for any change within the same items

Attendance

- Any student who exceeds 30% absence in clinical rounds will be withheld from attending the clinical exam.

Log book, Self-learning and Attendance

These are three separate issues

a. **Attendance :**

- i. The students should attend at least 70% of the total clinical training period: **39 days, so 16 days absence interferes with attending the exam.**
- ii. Students with recurrent nonattendance and those with non-real signatures will be subjected for withdrawal from the midterm exam
- iii. **Those how miss or withdrawn from the midterm exam are not allowed to attend the exam any more**

b. **Log book activities:**

- i. It is a tool for long interaction between the student and the staff member
- ii. Each student should fulfill the requirements in the Log book
- iii. Throughout the 10 weeks of the clinical round, students should do their activity and should be evaluated before signing for the activity by all means of evaluation. **But putting** in mind that subtracting marks is for only activity deficit and not for knowledge deficit
- iv. Each staff member is allowed to sign only for one activity throughout the 10 weeks... we should stop the (signature party) at the end of the clinical round
- v. Log book will be evaluated at the end of clinical round (without oral examination) as shown in the calendar
- vi. Signatures of the staff should be real ones

c. **Self-learning activities:**

- i. Each student should make one of the activities by the end of the clinical round
- ii. These may include:
 - o PowerPoint presentation (not more than 3 students)
 - o Essay
- iii. Students will be subdivided into subgroups
- iv. This small group will be linked to one staff: choose the activity, choose the title, start early the activity and direct them throughout the 11 weeks
- v. Also , this staff will direct this group for proper management of the log book activities (but again only one signature for one activity is allowed for each staff member)

Course Specifications

Obstetrics & Gynecology

A- Professional Information

1 - Overall Aims of Course

The general aim of the course is to provide students with knowledge, skills and attitudes necessary to make an essential Obstetrics and Gynecology framework of the general practitioner including awareness of the common Obstetrics and Gynecology emergencies. In addition, the students will be acquainted with the main activities of scientific research and community service provided by the department.

2 – Intended Learning Outcomes of Course (ILOs)

a- Knowledge and Understanding:

a.1.Obstetrics:

By the end of this course the student (the learner) will be able to :

- a.1.1. Define fertilization, implantation and early development of the human fetus.
- a.1.2. Enumerate the various physiologic maternal changes in response to pregnancy, nutritional requirements and different precautions in early pregnancy.
- a.1.3. Recognize the various complications in early & late pregnancy.
- a.1.4. Describe the various causes of antepartum hemorrhage, their diagnosis and management.
- a.1.5. Enlist the various medical disorders complicating pregnancy and their management.
- a.1.6. Recognize different hypertension related disorders related to pregnancy, their risk factors, prevention of complications and their management.
- a.1.7. Explain the different teratogenic subjects and their effects on the growing fetus.
- a.1.8. Identify the normal and abnormal human parturition and its management.
- a.1.9. Identify the normal and abnormal uterine actions and their effect on the process of labor.
- a.1.10. Summarize the different complications of the third stage of labor and how to manage and how to resuscitate new born and describe normal and abnormal perpuerium
- a.1.11. Identify the different types of fetal injuries that may occur during labor. Know the etiology, mechanism, types, diagnosis and treatment of common Obstetric injuries.
- a.1.12. Memorize of the different causes of maternal & neonatal mortality, especially in Egypt and how to prevent.
- a.1.13. Recall the different operative interventions in obstetrics and underline the different drugs use (analgesia and anesthesia)
- a.1.14. Describe the normal and abnormal anatomy of fetal skull and female bony pelvis
- a.1.15. Recognize criteria of life threatening situations in Obstetrics.

a.2. Gynecology:

By the end of this course the student (the learner) will be able to :

- a.2. 1. Define normal embryology and anatomy of the genital system.
- a.2. 2. Enlist the common genital anomalies that affect the genital tract and describe a summary of their treatments.
- a.2. 3. Summarize the common diseases affecting the genital tract.
- a.2. 4. Enumerate the various causes of genital tract infection, common pathogens and common infection routes and risk factors.
- a.2. 5. Enlist of the different sexually transmitted diseases, illustrate their mode of infection, and discuss their prevention, diagnosis and management.
- a.2. 6. Discuss the normal and abnormal aspects of human sexuality and how to deal with the different sexuality disorders.
- a.2. 7. Recognize the different causes of abnormal uterine bleeding and how to diagnose and manage.
- a.2. 8. Recall of the different causes of male and female infertility, how to diagnose and manage.
- a.2. 9. Describe the various types of tumors affecting the genital system, the etiology, pathology, diagnosis and treatment.
- a.2. 10. Enumerate the groups of symptoms of the genitourinary tract.
- a.2. 11. Identify the different aspects of pelvic floor function and its disorders.
- a.2. 12. Recognize the different methods and indications of contraception.
- a.2. 13. Review the mechanism and treatment of gynecologic emergencies.
- a.2. 14. Recognize the different problems of female breast and how to reach a diagnosis and management.
- a.2. 15. Discuss the reproductive medicine and women's health.
- a.2. 16. Identify the common uses of laparoscopy in Obstetrics and Gynecology; both diagnostic and therapeutic.
- a.2. 17. Memorize the different uses of ultrasound in Obstetrics and Gynecology.
- a.2. 18. Recognize criteria of life threatening situations in Gynecology.

b- Intellectual Skills

By the end of this course the student (the learner) will be able to :

- b.1. Integrate basic biomedical science with clinical care of gynecologic and obstetric patients
- b.2. Reason deductively in solving clinical problems related to the gynecologic, reproductive and obstetric medicine:
- b.3. Apply personal judgment for analytical and critical problem solving.
- b.4. Integrate the results of history, physical and laboratory test findings into a meaningful diagnostic formulation.
- b.5. Construct appropriate management strategies for patients with gynecologic reproductive and obstetric diseases, both acute and chronic, including medical, psychiatric, and surgical conditions.
- b.6. Design an initial course of management for stabilization of patients with serious illnesses.
- b.7. Retrieve, analyze, and evaluate relevant and current data from literature, using information technologies and library resources, in order to help solve a clinical problem based on evidence (EBM).
- b.8. Recognize and cope with uncertainty that is unavoidable in the practice of medicine by accepting and reacting to uncertain situation through proper counseling ,consultation and referral

c-Professional and Practical Skills

By the end of this course the student (the learner) will be able to :

- c1. Take focused history in a patient complaining of an obstetric and gynecologic complaint.
- c2. Practice interview and examination of a patient in the outpatient clinic.
- c3. Do obstetric grips examination.
- c4. Demonstrate fetal heart sounds by Pinard's stethoscope and sonicaid.
- c5. Differentiate the normal and abnormal colposcopic findings.
- c6. Perform normal and abnormal vaginal delivery. (skill Lab)
- c7. Interpret the hysterosalpingogram and semen analysis for infertile couples.
- c8. Use the equipments used in the Obstetrics and Gynecology department as Cusco's speculum, volselum, uterine sound, cytobrush .
- c9. Assess the mental state of the patient
- c10. Record patients ' data appropriately.
- c11. Adopt suitable measures for infection control.
- c12. Demonstrate naked eye appearance of different obstetrics & gynecology disorders (museum)

d-General and Transferable Skills

By the end of this course the student (the learner) will be able to :

- d.1. Communicate ideas and arguments effectively.
- d.2. Work effectively within a team.
- d.3 Perform effective communication with the patient and the tutor.

Assessment Schedule

Assessment 1	Post round exam (mid term exam)	week	12
Assessment 2	Multistation (jars & instruments) (final term exam)	OSPF	
Assessment 3	Clinical exam (practical exam)	OSCE	
Assessment 4	Written exam (final exam)		
Assessment 5	MCQ(final exam)		
Assessment 6	Oral exam (final exam)	Standard oral cards	

Weighting of Assessments

Term Examination	16%	80		
Oral Examination	10%	50		
Practical Examination	15%	75		
skill lab	5%	25		
Final exam	30%	150		
MCQ	20%	100		
Other types of assessment	4%	20	2% 10 logbook	2% 10 self activity
Total	100%	500		

Any formative: only assessments

Instructions for the Students

- Each student should fulfill the following: (10 marks)

Order	Activity
1	Two <i>Obstetric case</i> presentations. <ul style="list-style-type: none"> • Inpatient department • Outpatient clinic
2	Two <i>Gynecologic case</i> presentations. <ul style="list-style-type: none"> • Inpatient department • Outpatient clinic
3	Two attendances in the <i>delivery room</i> .
4	Attendance of one Obstetric US
5	Attendance of one Gynecologic US
6	Other <i>activities</i> attendances which include : <ul style="list-style-type: none"> • Colposcopic examination. • Operative theater attendance either obstetric or Gynecologic cases. • Fertility Care Unit attendance. • Outpatient minor procedures.
Skill lab	1- Pelvic Examination 2- Pap smear 3- Management of Second stage 4- Management of third stage 5- Episiotomy 6- Partogram 7- IUD insertion 8- HSG

- Each of these items should be *supervised and signed* by the attending *staff member* only (**not assistants or residents**).
- Information about *Log books collection* and *evaluation* will be available at the *Student's Guide*.
- The sheet items given in this log book *are not* the *all items* required in the full sheet form.

جدول المحاضرات الصباحية لطلبة الفرقة السادسة للعام ٢٠١٨/٢٠١٩

الساعة ٨:٣٠ - ١٠ ص

المكان: مدرج المتحف بالكلية

أيام: من السبت الى الأربعاء

المحاضر	الوحدة	المحاضرة	اليوم - التاريخ	
	الأسبوع الأول	Case taking history (gynecology 1)		1.
		Case taking history (examination gynecology 2)		2.
		Case taking history (obstetric 1)		3.
		Case taking history (examination obstetric 2)		4.
		Similarities and differences between 2 clinical sheets. How to put a professional diagnosis.		5.
	الوحدة الأولى	Anatomy of the Female Genital Tract		6.
		Diagnosis of Pregnancy.		7.
		Embryology of The Female Genital Tract		8.
		Gynecological Endocrinology.		9.
		Physiology of the Menstrual Cycle		10.
	الوحدة الثانية	Puberty Menopause & HRT		11.
		Fertilization, implantation and early development.		12.
		Placenta, placental function and fetal circulation.		13.
		Amniotic fluid and its diseases		14.
		Antepartum Assessment of Fetal Well-being.		15.
	الوحدة الثالثة	Teratology and Common Fetal Anomalies		16.
		Normal labor (physiology, mechanism)		17.
		Normal labor (management).		18.
		Obstetrics analgesia and anesthesia.		19.
		Sexuality and Sexual Dysfunctions, Female Genital Cutting (Mutilation).		20.
	الوحدة الرابعة	Sexually Transmitted Diseases (STDs)		21.
		Dysmenorrhea, PMS, pelvic pain		22.
		Old complete perineal tears and recto-vaginal fistulae.		23.
		Contraception [1] "physiological barrier and mechanical.		24.
		Contraception [2] "hormonal and surgical types".		25.
	الوحدة الأولى	Introduction to malpresentation and OP		26.
		Face, brow, shoulder and cord presentations.		27.
		Breech presentations.		28.
		Twin and multiple pregnancies		29.
	الوحدة الثانية	Abnormal uterine actions.		30.
		Contracted pelvis and CPD, Trial Labor		31.
		Soft Tissue Obstruction, fetal dystocia		32.
		Third stage complications.		33.
	الوحدة الثالثة	Genital tract injuries and rupture uterus.		34.
		Normal Puerperium and Postnatal Care , Puerperal Pyrexia		35.
		Fetal Birth Injuries and neonatal asphyxia		36.
	الوحدة الرابعة	Cesarean section		37.
		Induction of labor and abortion.		38.
		Maternal and Perinatal Mortality		39.
		Endometriosis and Adenomyosis.		40.

Clinical Course For Undergraduate Teaching

**Department of Obstetrics & Gynecology
Faculty of Medicine – Mansoura University
2018-2019**

- 1. Outpatient gynecologic clinic course**
- 2. Outpatient obstetrical clinic course**
- 3. Inpatient gynecological round course**
- 4. Inpatient obstetric round course**
- 5. Jars, skill lab. , Instruments & Operations.**

Curriculum for Outpatient Gynecologic Clinic Teaching

Weeks	Title	Details
Week 1	History taking and examination	All groups in the museum in the faculty.
Week 2	Female 2ry sex characters.	1ry Amenorrhea: I- developed breast and present uterus II- developed breast and absent uterus III- absent breast and present uterus IV- absent breast and absent uterus. Investigations (buccal smear for karyotype, laparoscopy for gonadal type) hormones (FSH, LH, prolactin) hormone withdrawal test. 2ry Amenorrhea : common causes
Week 3	Bleeding from genital tract	Etiologic classification, pattern (menorrhagia – metrorrhgia and polymenorrhea), life periods (prepubertal, adolescent, child bearing period, premenopausal, perimenopausal, postmenopausal bleeding). Local Gyn examination
Week 4	Pelvi-abdominal mass:	description, differentiation between abdominal and pelvi abdominal, and differentiation between uterine and extrauterine masses Abdominal examination Local Gyn examination
Week 5	Pelvic organ prolapse	Deficient perineum and wide introitus, types of vaginal prolapse, degrees of uterine descent and associated urinary symptoms.
Week 6	Infertility factors	Male factor (normal and abnormal seminogram) , ovarian factor (detection of ovulation : mid luteal progesterone), peritoneal factors (laparoscopy).
Week 7	Infertility factors	tubal factor (HSG and laparoscopy), uterine factor (HSG and hysteroscopy) and cervical factor (post coital test)
Week 8	Vaginitis Cervicitis	demonstration of discharge of candidiasis and trichomoniasis , bacterial vaginosis , vulvo- vaginitis of children and senile vaginitis , (clinical varieties , demonstration) and PID (definition, symptoms, signs , DD and treatment)
Week 9	Fibroid	Risk factors - symptoms – signs – differential diagnosis – ultrasound (demonstration). Genital malignancies
Week 10	Missing + revision	
Week 11	Revision + self-assessment	D.D in gynecology
Week 12	Assessment	Exam

- These topics to be fulfilled in addition to the usual activities of history taking and clinical examination
- It is the priority of the staff to moderate the scientific contents activities
- يتم الالتزام بقدر الامكان بترتيب مواضيع الاسبوع مع الوضع في الاعتبار ان الاولوية لإجمالي العنوانين حسب توافر الحالات بغض النظر عن الترتيب

Curriculum for Outpatient obstetrical Clinic teaching

Weeks	Title	Subjects
Week 1	History taking and examination	All groups in museum in the faculty.
Week 2	Diagnosis of early pregnancy	Symptoms suggestive of early pregnancy, signs of early pregnancy, Immunological pregnancy test (demonstration).
	Methods of estimation of duration of pregnancy	excepted date (Naegel's rule, fundal level, sonar (1st, , 2nd , 3rd)
	Fetus in utero	Fetal lie, presentations, positions, engagement.
	Abdominal exam	Inspection
Week 3	High risk pregnancy:	Definition, risk factors from history examination and investigations. Warning (dangerous) symptoms and signs of high-risk pregnancy.
	Abdominal exam	inspection + obstetrics grips (demonstration)
Week 4	Obstetric abdominal examination (Training)	Fundal level, fundal grip, umbilical grip, pelvic grips.
Week 5	Ultrasonic examination demonstration	1 st trimester pregnancy (sac, embryo, CRL) 2 nd trimester pregnancy (fetus , placenta ,AF , BPD) 3 rd trimester pregnancy (AFI , FL
Week 6	Antenatal care + obstetric examination	Visits, procedure and routine investigation during pregnancy.
Week 7	Stages of normal labor (partogram)	Physiology and management.
Week 8	Obstetric abdominal examination (Training)	Fundal level, fundal grip, umbilical grip, pelvic grips.
Week 9	Approaching labor	symptoms and signs of onset of labor,
	Onset of labor + obstetric examination	Symptoms and signs, false labor pain & true labor pain.
Week 10	missing + revision	
Week 11	Revision + self-assessment	D.D in Obstetrics
Week 12	Assessment	exam

- These topics to be fulfilled in addition to the usual activities of history taking and clinical examination
- It is the priority of the staff to moderate the scientific contents activities

• يتم الالتزام بقدر الامكان بترتيب مواضيع الاسبوع مع الوضع في الاعتبار ان الاولوية لإجمالي العنوانين حسب توافر الحالات بغض النظر عن الترتيب

Curriculum for Inpatient Gynecological Teaching

Weeks	Title	Details
Week 1	History taking and examination	All groups in museum in the faculty.
Week 2	Female 2ry sex characters.	1ry Amenorrhea: definition , I- developed breast and present uterus II- developed breast and absent uterus III- absent breast and present uterus IV- absent breast and absent uterus. Investigations: hormone withdrawal test , buccal smear for karyotype, laparoscopy for gonadal type, hormones (FSH, LH, prolactin) , 2ry Amenorrhea : common causes
Week 3	Bleeding from genital tract :	prepubertal bleeding, adolescent bleeding , child bearing bleeding , premenopausal bleeding, perimenopausal bleeding, postmenopausal bleeding), investigations: sonar, endometrial aspiration and biopsy , CBC, others .
Week 4	Fibroid :	Sheet, symptoms, signs, examination, DD, investigation (sonar, demonstration), Causes of symmetrically enlarged uterus. DD
Week 5	Pelvic organ prolapse :	Types of vaginal prolapse, degrees of uterine prolapse, Lower urinary symptoms, operations of genital prolapse.
Week 6	Infertility :	types, Infertility factors : male factor (normal and abnormal seminogram), ovarian factor (mid luteal progesterone , sonar),peritoneal factors (laparoscopy).Tubal factor (HSG and laparoscopy), uterine factor (HSG and hysteroscopy) and cervical factor (post coital test)
Week 7	Infertility PCOs:	Def, symptoms, signs , sonar : lab, invest., treatment
Week 8	Ovarian tumors:	Characters of ovarian malignancy, staging (clinical, imaging and at laparotomy).
Week 9	Other genital malignancies	Difference between abdominal and pelvi-abdominal and difference between uterine and extra uterine.
Week 10	Missings + revision	
Week 11	Revision + self-assessment	D.D in gynecology
Week 12	Assessment	Exam

- These topics to be fulfilled in addition to the usual activities of history taking and clinical examination
- It is the priority of the staff to moderate the scientific contents activities
- يتم الالتزام بقدر الامكان بترتيب مواضيع الاسبوع مع الوضع في الاعتبار ان الاولوية لإجمالي العنوانين حسب توافر الحالات بغض النظر عن الترتيب

Curriculum for Inpatient Obstetric Teaching

Weeks	Title	Details
Week 1	History taking and examination	All groups in the museum in the Faculty.
Week 2	Bleeding in early pregnancy	Types, symptoms signs, sonar, treatment. Differences between abortion, ectopic, vesicular mole
Week 3	Habitual abortion: Thromboembolism	causes and investigations
Week 4	Preeclampsia:	Predisposing factors (high risk factors), symptoms of severe preeclampsia, signs, degree, DD, special investigations, treatment.
Week 5	Diabetes mellitus with pregnancy	: effects of diabetes on fetus and newly born, effects of pregnancy on diabetes, antenatal care, intra-natal care (timing and methods of delivery), immediate post natal care (maternal and neonatal care: incubator)
Week 6	Heart disease with pregnancy:	functional grades heart disease, effects of pregnancy on heart disease, effects of heart disease on pregnancy, Antenatal care, intra-partum care, postpartum care.
Week 7	Anemia with pregnancy	, common types of anemia with pregnancy, effects of Anemia on pregnancy. Treatment of iron deficiency anemia.
Week 8	Previous CS:	Indications of CS, advantages and disadvantages of LSCS incision.
Week 9	IUGR and IUFD	Criteria, Causes and special investigations, management.
Week 10	PROM : Preterm labor :	Diagnosis, effects on pregnancy (maternal, fetal, newly born) Diagnosis, effects on fetus and newly born.)
Week 11	missing + revision	
Week 12	Revision + self-assessment	D.D in Obstetrics
Week 13	Assessment	Exam

- These topics to be fulfilled in addition to the usual activities of history taking and clinical examination
- It is the priority of the staff to moderate the scientific contents activities
- يتم الالتزام بقدر الامكان بترتيب مواضيع الاسبوع مع الوضع في الاعتبار ان الاولوية لإجمالي العنواين حسب توافر الحالات بغض النظر عن الترتيب

Jars, skill lab., Instruments and Operations.

الوقت: ١٠ - ٣٠:١٢. ظ من السبت الى الأربعاء
المكان: متحف النساء

Week	Subject	Notes
Weeks 1	History Taking	All groups in the museum in the Faculty
Weeks 2	1- Female pelvis 2- Fetal skull 3- Fetomaternal relationships	
Weeks 3	1- Pelvic Examination (skill lab) 2- Pap smear (skill lab)	الجارات المطلوب شرحها GYN 1-1 AND GYN 2-1 to GYN 2-3
Weeks 4	1- Management of Second stage (skill lab) 2- Management of third stage (skill lab)	Instruments used in obstetrics
Weeks 5	Uterine fibroid	الجارات المطلوب شرحها GYN 4-1 to GYN 4-26
Weeks 6	1- Episiotomy (skill lab) 2- Partogram (skill lab)	الجارات المطلوب شرحها OBS 1-1 to OBS 1-5 AND OBS 2 to OBS 6 AND OBS 7-1 to OBS 7-2 AND OBS 8
Weeks 7	1- Endometrial hyperplasia 2- Endometrial cancer	الجارات المطلوب شرحها GYN 3-1 to GYN 3-4 AND GYN 5-1 to GYN 5-6
Weeks 8	1- IUD insertion (skill lab) 2- HSG	Instruments used in gynecology
Weeks 9	Cancer cervix	الجارات المطلوب شرحها GYN 6-1 to GYN 6-6
Weeks 10	Ovarian Cancer	الجارات المطلوب شرحها GYN 8-1 to GYN 8-13
Week 11	1- Instrumental delivery 2- Version	يبدأ من الساعة ٩ ص لكل مجموعة على حدة في يوم المتحف الخاص بها
Week 12	1- Cancer vulva 2- Cancer vagina Review of Instruments & Jars	الجارات المطلوب شرحها GYN 7-1 to GYN 7-2 AND GYN 9-1 to GYN 9-4

- These topics to be fulfilled in addition to the usual activities of history taking and clinical examination
- It is the priority of the staff to moderate the scientific contents activities
- يتم الالتزام بقدر الامكان بترتيب مواضيع الاسابيع مع الوضع في الاعتبار ان الاولوية لإجمالي العنوانين حسب توافر الحالات بغض النظر عن الترتيب

خطة التدريس للعام الدراسي ٢٠١٩ (الفرقة السادسة)

- يبدأ الدرس الإكلينيكي ١٠ - ١٢,٣٠ ظ
- مدة الدراسة ستكون فقط: ١٢ أسبوع منه ١١ اسبوع دراسة وأسبوع للمراجعة وتقييم نشاط التعليم الذاتي واسبوع وامتحان أعمال السنة.
- يراعي عند تدريس معمل المهارات أن هناك لجنة كاملة في آخر العام بـ (٢٥) درجة مخصصة لهذا الامتحان بطريقة (Chick list) لذا يجب مراعاة التدريس بالتفاصيل وشرح (chick list).
- يتم تجميع كراسة الأنشطة في نهاية عمل يوم الأربعاء من الأسبوع العاشر:
 - المراجعة الأخيرة للغياب لتحديد المحرومون من دخول الامتحان.
 - تحديد من هناك شك في تزوير إمضاءاتهم.
 - تجهيز المجموعات لوضع درجة الكراسة يوم السبت أو الأحد التاليين (يوم النشاط الذاتي)

الحضور والغياب :

- نسبة الغياب المسموح بها ٣٠% (١٢ أسابيع X ٥ أيام دراسة X ٣٠%) = ١٨ يوم غياب لذا يحرم من دخول لامتحان أعمال السنة من غاب ١٩ يوماً أو أكثر (يلزم حضور ٤٢ يوماً على الأقل)
- " مع ملاحظة أن الجدول سيراعي الإجازات "
- سيتم الاعتماد علي إمضاء عضو هيئة التدريس لحصر الغياب
- سيتم مراجعة الغياب في نهاية الأسبوع ٤ و ٨ للإنذار ثم النهائي في آخر الأسبوع العاشر
- الطلاب الذين لم يحققوا نسبة الحضور أو تغيبوا عن دخول الامتحان في موعده ليس لهم حق دخول الامتحان في أي مجموعة أخرى أو آخر العام حسب لوائح الكلية.

كراسة الأنشطة:

- هي توثيق لنشاط الطالب علي طوال أيام الراوند وليس وثيقة إمضاء في آخر الراوند.
- كل عضو هيئة تدريس له إمضاء واحدة فقط عن أي من الأنشطة.
- كراسة الأنشطة مخصص لها عشرة درجات مقسمة علي عشرة أنشطة حقيقية لكل درجة وتم تحديد درجة مخصصة لكل نشاط.
- المطلوب الإمضاء لمن قام بالنشاط الفعلي علي مدار الراوند وليس لمن نقل آخر الراوند

النشاط الذاتي:

- يراعي أنه مخصص له عشرة درجات كاملة.
- يتم تكليف الطلاب خلال الأسبوع الرابع بالنشاط المطلوب علي أن توضع خطته في بداية الراوند مع مراعاة تكليف كل طالب بعمل حقيقي يقوم به منفرداً أو في مجموعات لا تزيد عن ثلاثة :

* Power point Presentation

*Essay

امتحان أعمال السنة:

- مخصص له ثمانون درجة
- ستة عشرة محطة لكل خمسة درجات :

■ محطتان: حالة حوامل لكل محطة	■ محطتان: آلات
■ محطتان: حالة أمراض نساء لكل محطة	■ محطتان: جارات
■ محطتان: سؤال إكلينيكي حوامل لكل محطة	■ محطتان: موديل
■ محطتان: سؤال إكلينيكي أمراض نساء لكل محطة	■ محطتان: تنظيم أسرة/سؤال/جار/آله/حالة/صورة/....
