تنبيه هام

- الطالب الذى تتجاوز نسبة غيابه عن الدروس الإكلينيكية ٣٠٪ سيتم حرمانه من دخول امتحان الترم الاكلينيكي وذلك حسب التعليمات واللوائح المنظمة وعليه يلزم حضور ٤٢ يوما على الاقل .
- يلتزم الطلاب بالتقدم لامتحانهم فى موعد الراوند المخصص لهم .
- الطلاب المتخلفون عن الحضور للامتحان او المتجاوزين لنسبة الغياب سيتم حرمانهم نهائيا من دخول امتحان اعمال السنة حسب لوائح الكلية .

المحاضرات النظرية :

مجموعة ب : الثلاثاء - الاربعاء

مجموعة أ : السبت - الاحد

مدرج : صيدلة ب

الساعة : ٨,٣٠ - ٩,٣٠ص

التدريب الاكلينيكي : ٩,٤٥ ص - ١٢ ظ

Student's Guide

Dear students ,

Welcome to the final turn of the long marathon and a special welcome to the OBS & GYN dept. In fact, you should study this subject with more interest. Sometime, you will be a wife / a husband and we wish you will be a mother / a father. So, most of our subjects are directly related to your personal life.

Not only that, but you as a general practitioner should know the common obstetric & gynecologic complaints and you should decide when to refer the patient to a specialist

But , why there is always a high solid barrier between the Dept and the students

We think the main reasons may be;

- Our image is drawn by others not by ourselves
- The cumulative knowledge of one year is studied and revised in a couple of months
- To listen to a junior inexperienced unripe (teaching person) in a private class is more convenient and comfortable for the student resulting a student with very shallow knowledge & experience
- The general culture and atmosphere of the country
- Huge students number
- Deficient teaching tools
- Vanishing respectation

So , how to bypass this dilemma?

As this book is directed to the student, so the role of the student is

- Stop listening to others: make your own experience
- Attend clinical rounds: you can learn from any one at least something
- Attend theoretical lecturers: you should realize that you are dealing with the highest qualified and the heaviest trained staff in this specialty in our local community
- To learn , to know and to study are aims & not vehicles
- Speak to your tutors
- Respectation
- Honesty with the self

How to improve our results ?

- Regular attendance
- Recollect the missed lessons
- Don't delay your study
- Don't listen to the depressive voices
- Catch the best from each tutor
- Remember that you will be responsible for lives of others, and sometime there will be someone at risk of death under your supervision
- Study from a respectable source
- Learn from the bright stars not from the dark stones
- Search , ask, negotiate ,debate ,
- Believe in yourself

About our department :

- Initiated on 1967
- No of beds : 132
- Services:
 - 24912 patient /year
 - 8975 Admission cases/year
- Five working groups
- 54 staff members
- More than 30 assistant staff members

Places in the main MUH buildings

- Dept 9: 3rd floor MUH
- Dept 10: 3rd floor MUH
- Dept 15: 4th floor MUH
- High risk pregnancy unit : 3rd floor MUH
- Emergency unit " 1st floor
- Outpatient Obst clinic : Obs & Gyn University Hospital
- Outpatient Gyn clinic : Obs & Gyn University Hospital
- Fertility care unit

Places in the faculty of Medicine

- OBS & GYN museum
- Skill Lab

Sources of study:

- Dept Obs Book
- Ten teachers book
- Dept MCQ Book
- Dept Gyn Book
- Dept practical book
- Other text books

Developing steps for the sources of study

- Revision updating and summarization of the Dept Books.
- A new book for the museum, instruments and skill lab.
- A new CD for the museum instruments & skill lab.

Plan of study:

- Theoretical lectures: according to the place & time plan shown in appendix I

Clinical training :

- 3 hours daily for 6 days / week for 10 weeks (plus one week for exam)
- Clinical training will be held at:
 - Obs outpatient clinic
 - Gyn outpatient clinic
 - Fertility care unit
 - Obs inpatient ward
 - Gyn inpatient ward
 - Museum : jars & instruments
 - Skill lab

This is shown in appendix

Items for museum training & skill lab are shown in appendix

In addition, some clinical lectures will be held during the clinical training course as shown in appendix

Exams & marks

- Midterm exam multi station 80 marks
- Log book activities 10 marks
- Self learning activity : 10 marks
- Written paper 150 marks
- MCQ : 100 marks
- Clinical exam : 75 marks (3 stations)
- Oral exam : 50 marks (2 stations)
- Skill Lab exam: 25 marks

Midterm exam:

- Will be held at the end of the clinical round as shown in the calendar
- 16 stations 5 marks for each:

○ 2 Obst cases	○ 2 Obst questions
○ 2 Gyn cases	○ 2 Gyn questions
○ 2 Jars	○ 2 instruments
○ 2 models	○ 2 stations: photos- diagram- contraception- others

- All questions will be related to clinical knowledge

Attendance

- Any student who exceeds 30% absentism in clinical rounds will be withheld from attending the clinical exam.

Log book, Self-learning and Attendance

These are three separate issues

a. **Attendance :**

- i. The students should attend at least 70% of the total clinical training period: **42 days, so 19 days absence interferes with attending the exam.**
- ii. Students with recurrent nonattendance and those with non-real signatures will be subjected for withdrawal from the clinical exam
- iii. **Those how miss or withdrawn from the clinical exam are not allowed to attend the exam any more**

b. **Log book activities:**

- i. It is a tool for long interaction between the student and the staff member
- ii. Each student should fulfill the requirements in the Log book
- iii. Throughout the 10 weeks of the clinical round, students should do their activity and should be evaluated before signing for the activity by all means of evaluation. **But putting** in mind that subtracting marks is for only activity deficit and not for knowledge deficit
- iv. Each staff member is allowed to sign only for one activity throughout the 10 weeks... we should stop the (signature party) at the end of the clinical round
- v. Log book will be evaluated at the end of clinical round (without oral examination) as shown in the calendar
- vi. Signatures of the staff should be real ones

c. **Self-learning activities:**

- i. Each student should make one of the activities by the end of the clinical round
- ii. These may include:
 - o PowerPoint presentation (not more than 3 students)
 - o Essay
 - o Wallpaper
 - o Dept statistics
- iii. Students will be subdivided into subgroups
- iv. This small group will be linked to one staff: choose the activity, choose the title, start early the activity and direct them throughout the 10 weeks
- v. Also , this staff will direct this group for proper management of the log book activities (but again only one signature for one activity is allowed for each staff member)

Course Specifications

Overall Aims of Course

The general aim of the course is to provide students with knowledge, skills and attitudes necessary to make an essential Obstetrics and Gynecology framework of the general practitioner including awareness of the common Obstetrics and Gynecology emergencies. In addition, the students will be acquainted with the main activities of scientific research and community service provided by the department.

Intended Learning Outcomes of Course (ILOs)

a- Knowledge and Understanding:

a.1.Obstetrics:

By the end of this course the student (the learner) will be able to :

- a.1.3. Recognize the various complications in early pregnancy including abortion, molar pregnancy and ectopic pregnancy and recognize various complications in late pregnancy.
- a.1.4. Describe the various causes of antepartum hemorrhage, their diagnosis and management.
- a.1.5. Enlist the various medical disorders complicating pregnancy and their management.
- a.1.6. Recognize different hypertension related disorders related to pregnancy, their risk factors, prevention of complications and their management.
- a.1.8. Identify the normal and abnormal human parturition and its management.
- a.1.10. Enlist the different complications of the third stage of labor and how to manage and how to resuscitate new born and describe normal and abnormal perpuerium
- a.1.11. Identify the different types of fetal injuries that may occur during labor. Get insight into the etiology, mechanism, types, diagnosis and treatment of common Obstetric injuries (pelvic floor trauma, urinary injuries, rectal injuries and rupture uterus).
- a.1.12. Memorize of the different causes of maternal & neonatal mortality, especially in Egypt and how to prevent.
- a.1.13. Review the different operative interventions in obstetrics and knowledge of the different drugs use (analgesia and anesthesia)

a.2. Gynecology:

By the end of this course the student (the learner) will be able to :

- a.2. 2. Enlist the common genital anomalies that affect the genital tract and describe a summary of their treatments.
- a.2. 3. Enlist the common diseases affecting the genital tract.
- a.2. 4. Enumerate the various causes of genital tract infection, common pathogens and common infection routes and risk factors.
- a.2. 5. Knowledge of the different sexually transmitted diseases, their mode of infection, their prevention, diagnosis and management.
- a.2. 7. Describe the different causes of abnormal uterine bleeding and how to diagnose and manage.
- a.2. 8. Knowledge of the different causes of male and female infertility, how to diagnose and manage.
- a.2. 9. Describe the various types of tumors affecting the genital system, the etiology, pathology, diagnosis and treatment.
- a.2. 10. Enumerate the groups of symptoms of the genitor-urinary tract.
- a.2. 11. Identify the different aspects of pelvic floor function and its disorders.
- a.2. 12. Recognize the different methods and indications of contraception.
- a.2. 13. Get insight into the mechanism and treatment of gynecologic emergencies.
- a.2. 14. Enumerate the different problems of female breast and how to reach a diagnosis and management.
- a.2. 15. Get insight into the reproductive medicine and women's health.
- a.2. 16. Get insight into the common uses of laparoscopy in Obstetrics and Gynecology; both diagnostic and therapeutic.
- a.2. 17. Enumerate the different uses of ultrasound in Obstetrics and Gynecology.

b- Intellectual Skills

By the end of this course the student (the learner) will be able to :

- b.1. Integrate basic biomedical science with clinical care of gynecologic and obstetric patients

- b.2. Reason deductively in solving clinical problems related to the gynecologic, reproductive and obstetric medicine:
- b.3. Use personal judgment for analytical and critical problem solving.
- b.4. Integrate the results of history, physical and laboratory test findings into a meaningful diagnostic formulation.
- b.5. Construct appropriate management strategies for patients with gynecologic reproductive and obstetric diseases, both acute and chronic, including medical, psychiatric, and surgical conditions.
- b.6. Design an initial course of management for stabilization of patients with serious illnesses.
- b.7. Classify factors that place individuals at risk for disease or injury, to determine strategies for appropriate response.

c-Professional and Practical Skills

By the end of this course the student (the learner) will be able to :

- c1. Take focused history in a patient complaining of an obstetric and gynecologic complaint.
- c2. Perform effective communication with the patient and the tutor.
- c3. Recognize criteria of life threatening situations in Obstetrics and Gynecology.
- c4. Observe how a patient in the outpatient clinic is interviewed and examined.
- c5. Do obstetric grips examination.
- c6. Recognize fetal heart sounds by Pinard’s stethoscope and sonicaid.
- c7. Differentiate the normal and abnormal colposcopic findings.
- c8. Observe normal vaginal delivery.
- c9. Observe cesarean section delivery.
- c10. Interpret the hysterosalpingogram and semen analysis for infertile couples.
- c11. Identify the equipments used in the Obstetrics and Gynecology department: theatre, outpatient and inpatient.
- c12. Assess the mental state of the patient
- c13. Record patients ' data appropriately.
- c14. Formulate a management plan for common gynecologic reproductive and obstetric diseases and acute emergencies.
- c15. Adopt suitable measures for infection control.

d-General and Transferable Skills

By the end of this course the student (the learner) will be able to :

- d.1. Communicate ideas and arguments effectively.
- d.2. Work effectively within a team.

Assessment Schedule

Assessment 1	Post round exam (mid term week 11 exam)
Assessment 2	Multistation (jars & instruments) (final term exam)
Assessment 3	Clinical exam (practical exam: including skill lab assessment)
Assessment 4	Written exam (final exam)
Assessment 5	MCQ (final exam)
Assessment 6	Oral exam (final exam)

Weighting of Assessments

Mid-Term Examination	16%	80
Final-Term Examination		
Oral Examination	10%	50
Practical Examination + skill lab	20%	75 + 25
Final written exam	30%	150
MCQ	20%	100
Others (Log Book + self-learning assessment)	4%	20
Total	100%	500

Any formative: only assessments

Instructions for the Students

- Each student should fulfill the following:

Order	Activity	Marks
1	Two <i>Obstetric case</i> presentations. <ul style="list-style-type: none"> • Inpatient department • Outpatient clinic 	1 mark 1 mark
2	Two <i>Gynecologic case</i> presentations. <ul style="list-style-type: none"> • Inpatient department • Outpatient clinic 	1 mark 1 mark
3	Two attendances in the <i>delivery room</i> .	2 marks
4	Attendance of one Obstetric US	1 mark
5	Attendance of one Gynecologic US	1 mark
6	Other <i>activities</i> attendances which include : <ul style="list-style-type: none"> • Colposcopic examination. • Operative theater attendance either obstetric or Gynecologic cases. • Fertility Care Unit attendance. • Outpatient minor procedures. 	1 mark for each of any two

- Each of these items should be *supervised and signed* by the attending *staff member* only (**not assistants or residents**) .
- Information about *Log books collection* and *evaluation* will be available at the *Student's Guide* .
- The sheet items given in this log book *are not* the *all items* required in the full sheet form.

محاضرات مادة أمراض النساء بالكلية

Syllabus of Gynecology - 6th year

2012 -2013

المكان : صيدلة ب اليوم : السبت – الثلاثاء (مجموعة أ) الوقت : ٨,٣٠ – ٩,٣٠ص

الاحد – الاربعاء (مجموعة ب) (حتى اخر ابريل)
