

## COURSE SPECIFICATION

Faculty of Medicine- Mansoura University

### (A) Administrative information

(1) Programme offering the course.	Master of Audiology
(2) Department offering the programme.	ENT /audiology unit
(3) Department responsible for teaching the course.	Anatomy department
(4) Part of the programme.	First part
(5) Date of approval by the Department`s council	6-8-2016
(6) Date of last approval of programme specification by Faculty council	9/8/2016
(7) Course title.	Applied Anatomy
(8) Course code.	AUDI 501
(9) Total teaching hours.	7.5

**(B) Professional information**

**(1) Course Aims.**

The broad aims of the course are as follows: (either to be written in items or as a paragraph)

This course aims at providing participants with the knowledge and basic skills related to anatomy specialty, as well as motivating them for research and positively changing their attitude to improve the outcome of the educational process.

## **(2) Intended Learning Outcomes (ILOs):**

Intended learning outcomes (ILOs); Are four main categories: knowledge & understanding to be gained, intellectual qualities, professional/practical and transferable skills.

On successful completion of the course, the candidate will be able to:

### **A- Knowledge and Understanding**

By the end of the program the postgraduate student be able to:

A 1c	Recognize the anatomy, embryology of the peripheral and central auditory system.
A 2c	Recognize anatomy, embryology of the peripheral and central vestibular system.

### **2- Intellectual activities (I)**

The Postgraduate Degree provides opportunities for candidates to achieve and demonstrate the following intellectual qualities:

### **B- Intellectual skills**

By the end of the course, the student should be able to:

B1	Integrate basic anatomical knowledge with clinical data.
----	--

(3) Course content:

Subjects	Lectures	Clinical	Laboratory	Field	Total Teaching Hours
Embryology of the ear	1				
Anatomy of external ear.	0.5				
Anatomy of middle ear	1				
Structures communicating with the tympanic cavity	1				
Anatomy of the inner Ear	1.5				
Central auditory pathway	0.5				
Anatomy of vestibulocochlear nerve	1				
Anatomy of the facial nerve	1				
	7.5				15

**(4) Teaching methods:**

4.1: Lectures

4.2: Discussion,

4.3: Assignments

**(5) Assessment methods:**

5.1: Written Exam to assess knowledge & intellectual skills

5.1: MCQ Exam to assess knowledge & intellectual skills

5.2: Structured oral Exams to assess knowledge & intellectual skills

**Assessment schedule:**

Assessment 1: Written Exams      Week: 16-18

Assessment 2: MCQ Exams      Week: 16-18

Assessment 3: Structured oral Exams      Week 18-20

**Percentage of each Assessment to the total mark.**

Written exam: 96 degrees

MCQ exam: 24 degrees

Structured oral exam: 80 degrees

Other assessment without marks: Assessment of attendance & absenteeism throughout the course

**(6) References of the course:**

6.1: **Hand books:** A colored Atlas of Human anatomy and Embryology

6.2: **Text books:** Gray's Anatomy

6.3: **Websites....** Innerbody.com

Google.com

**(7) Facilities and resources mandatory for course completion.**

- Teaching places (teaching class, teaching halls, teaching laboratory).
- Teaching tools: including screens, computers including CD, data show, projectors, flip charts, white boards, video player, digital video camera, scanner, copier and laser printers.

**Course coordinator:**

**Head of the department:**

**Date:**

**P.S. This specification must be done for each course.**
