1-Recent scientific knowledge essential for the	X	κ	X															x							X	X	
mastering of practice of Audiology according																											
to the international standards																											
2-Recent scientific knowledge essential for the		x																				X		X	X	X	
mastering of practice of Rehabilitation																											
according to the international standards																											
3-Recent scientific knowledge essential for the									x							x											
mastering of practice of internal medicine																											
according to the international standards																											
4-Recent scientific knowledge essential for the										X							x										
mastering of practice of pyschiatry according to																											
the international standards																											
5-Recent scientific knowledge essential for the											X	x	x														x
mastering of practice of neurology according to																											
the international standards																											
6-Recent scientific knowledge essential for the				X	X															x			X				
mastering of practice of acoustics &																											
psychoacoustics according to the international																											
standards																											

7-Recent scientific knowledge essential for the			X	X	X					X		X		
mastering of practice of electronic according to														
the international standards														
8-Recent scientific knowledge essential for the	xx							x						
mastering of practice of applied anatomy														
according to the international standards														
9-Recent scientific knowledge essential for the	xx	x						x						
mastering of practice of applied physiology														
according to the international standards														
10-Leadership skills, problem solving srategies														
11 - Clinical experience within department														
clinics as well as clinical sites outside the														
university.														
10 Tinhing (as this suith assessed														x
12- Linking teaching with research														
13.Active participation in community needs
