NARS for Master degree chest medicine

المقررات التي تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا
Physiology related to chest medicine/CHEST503 Pharmacology related to chest medicine/CHEST506 Pathology related to chest medicine/CHEST505 Microbiology related to chest medicine/CHEST507 Anatomy related to medicine /CHEST501 Histology related to chest medicine/CHEST502 Infection control in diseases/ CHEST511IC	A1-A15,A28	Access available information to assist in the management of pulmonary inpatients Identify strengths, deficiencies and limits in one's knowledge and expertise	1) Theories, concepts and specialized knowledge of the learning area and also sciences appropriate to the professional practice.
Chest medicine respiratory critical care/	A21	Demonstrate cultural competence in the hospital setting	2) Mutual influence between professional practice and its impacts on the environment.
Interventional radiolochest medicine/ CHEST 511IR	A27	They should participate in all quality improvement initiatives	3) Scientific developments in the field of specialization
Advanced course Respiratory ICU/ CHEST511RICU	A25	Demonstrate awareness of the ethical, economic, and legal aspects ofpulmonary illness.	4) Moral and legal ethics of the professional practice in the area of specialization.

Interventional radiolochest medicine/ CHEST 511IR Advanced course Respiratory ICU/ CHEST511RICU	A23,A24	All fellows are expected to: Gaining competency in the performance of procedures necessary for the practice of clinical pulmonary medicine.	5) The concepts and principles of quality of the professional practice in the area of specialization.
Thesis	A30	fellows are expected to:. Awareness of study design, influence of chance, bias, and confounders.	

ب ـ القدرات الذهنية:

المقررات التى تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا
Pharmacology related to chest medicine/CHEST506 Chest medicine respiratory critical care/ CHEST511 Internal medicine/CHEST510 Interventional endoscopies in chest medicine/ CHEST511IE	B1,B2,B3,B10,B11,B15	They should formulate comprehensive diagnostic and therapeutic approaches to inpatients with respiratory disorders. Senior fellows must demonstrate the ability to reliably generate an extensive differential diagnosis, and generate a patient care plan. Senior fellows are also expected to supervise and teach (with attending supervision and assistance) procedures to the junior house staff	1) Analyze and evaluate of information in the field of specialization and make full use of such information to solve problems.
Chest medicine respiratory critical care/ CHEST511 Advanced course Respiratory ICU/	B11-B15	Senior fellows are expected to anticipate and pro-actively address potential problems with regards to patient care	2) Solve specific problems on the basis of limited and contradictory information.

CHEST511RICU			
Chest medicine respiratory critical care/ CHEST511 Advanced course Respiratory ICU/ CHEST511RICU	B11-B15	Senior fellows are expected to anticipate and pro-actively address potential problems with regards to patient care	3) Demonstrate a high level of competence in the coordination of different sources of knowledge to solve professional problems
thesis	B17	Senior fellows may elect to conduct a CQI or research project in the field of pulmonary inpatient medicine.	4) Carry out a research study and / or writing a scientific methodology study on research problem.
Infection control in diseases/ CHEST511IC	B14	Review adverse outcomes in a critical fashion in order to improve future practice patterns	5) Assess and analyze risks of the professional practice in the field of specialization.
Internal medicine/CHEST510 Interventional radiolog chest medicine/ CHEST 511IR Advanced course Respiratory ICU/ CHEST511RICU Infection control in diseases/ CHEST511IC	B10-B14	All fellows are expected to: Gaining competency in the performance of procedures necessary for the practice of clinical pulmonary medicine.	6) Plan to improve performance in the field of specialization
Interventional endoscopies in chest medicine/ CHEST511IE Advanced course in a and immunologic diseases/ CHEST511AI	B15,B16	Fellows should demonstrate an understanding or a patient's perspective and share relevant information to patients, medical decision makers, and other key health care providers.	7) Make career decisions in different professional aspects

ج - المهارات العملية:
