

# Programme aims- ILOs matrix

| Aims  | ILOs                   |
|---|------------------------|
| 1- Within the philosophy of M.D., we aim to foster the development of personal communication skills with much emphasis on leadership & decision making skills as well as informational technology orientation.  | D1- D10                |
| 2- The degree is designed to prepare the candidate for Systems-based Practice where they must demonstrate an awareness of and responsiveness to the larger context and system of health care, as well as the ability to call effectively on other resources in the system to provide optimal health care. | D1-D10                 |
| 3- The certificate aims to prepare educators, researchers, and administrators capable of practicing Surgical Oncology in academic and clinical settings.  | A1-A92, B1-B29, C1-C16 |
| 4- The certificate is designed to give health science professionals and in-depth knowledge of oncology either commonly or rarely encountered, and how to construct appropriate, optimal management strategies (both diagnostic and therapeutic) for patients with cancer.                                 | A1-A92, B1-B29         |
| 5- To respond to the educational and research training needs of doctors with a special interest in Surgical Oncology. In addition, trainees will be expected to prepare a research proposal and dissertation for an original, self-directed project. This should be                                       | B1-B29, Thesis         |

|  |                        |
|--|------------------------|
| <p>based on a research question focusing on a real problem. The project allows trainees to explore a particular issue in surgical oncology.</p>  |                        |
| <p>6- To allow the fellows to develop an educational role in the course by communicating their understanding to their peer groups, by means of presentations, lectures. The emphasis will be on self-learning.</p> | <p>A1- A92, D1-D10</p> |
