		Leadership, social influence, power and obedience.		
		<p>Intergroup behaviour: prejudice, stereotypes and intergroup hostility.</p> <p>Social identity and group</p>		

		membership.			
	i	*Aggression Altruism*			
		Stigma and prejudice Ethnic minorities, acculturation and mental health	Social science & Socio-cultural psychiatry		
		Ethics and philosophy in psychiatry			1
	1	Knowledge of the principles of research methods, Statistics & Epidemiology	Research Basis		
		&Evidence-Critical Appraisal based practice			
		*Information processing and attention	GENERAL PSYCHOLOGY		
		perception of *Basic principle *Thought: the possible relationship with language.			

		Stress: physiological and psychological aspects.			
		*Normality and human development	Life span		
		Cognitive abilities			
		Biological aspects of psychology			

Psychopathology course

Signature	Professors		Subjects	التاريخ	اليوم
		*Disorders of self *Disorders of emotion	Descriptive Psychopathology		
		*Disorders of speech and thought *Disorders of perception			
		Movement disorders Disorders of cognition			

		Uncommon psychiatric syndromes			
		Cognitive behavioral school of psychopathology (Biases & Basis)	Contemporary Schools		
		Self psychology: self-concept, self-esteem and self-image.			
		Ego Psychology			
		Anxiety disorders OCD	Dynamic Psychopathology		
		Eating Disorders			
		Mood disorders Schizophrenia			
		Personality Disorders			
		Types of families and Role of family pathology in psychiatric disorders			
		Role of family in different disorders			

Physiology:

Signature	Professors	Subjects	التاريخ	اليوم
		Gene environment interaction		
		Higher control of autonomic , endocrine and immune systems		
		Human brain receptors		
		Signal transduction		
		Human brain circuit for executive functions		
		Human brain circuits for higher emotions		
		Human brain circuits for visual and written language		
		Human brain circuits for arousal and consciousness		
		Human brain circuits for memory		
		Human chronobiology		
		Behavioral and motivational mechanisms of the brain: the limbic system and hypothalamus		
		State of the brain activity: sleep, brain waves, epilepsy and psychosis		

		The autonomic nervous system and adrenal medulla

	Somatic symptom and related disorder	
	Disorders of mood: Depression and bipolar disorder	
	Disruptive behavior disorders	
	Feeding and eating disorders	

	Substance – related disorders	
	Trauma and stressor related disorders Children of diverse cultures	
	Individuals with disabilities: education & improvement of act	

Elective Course: Curriculum of ethics in psychiatry :

Date	Title	Supervisor's signat
	Informed consent	
	patients' rights	

	Legal competency of the mentally ill patients	
	Conflict of interest	
	Euthanasia	
	Confidentiality	
	Scientific publication	
	Informing the patient	
	Forced treatment	
	Forced hospitalization	
	Unnecessary treatment	
	Unnecessary hospitalization	
	Hospitalization of prisoners	
	Medical certificate	
	Expert testimony	

Section II: Clinical Cases

List of requirements (may include multiple pages)

Name of the case	Total number required	No. of cases to plan and carry out	No. of cases to carry out	No. of cases to carry out under supervision
Attention deficit hyperactivity disorder	25	5	5	15
Adult ADHD	10	2	3	5
Intellectual disability	25	5	5	15
Autistic spectrum disorder	25	5	5	15
Schizophrenia	70	10	10	50
Childhood onset schizophrenia	10	2	3	5
Brief psychotic disorder	30	5	5	20
Schizophreniform	30	5	5	20
Delusional disorder	30	5	5	20

Bipolar I	70	10	10	50
Bipolar II	30	5	5	20
Major depressive disorder	70	10	10	50
Generalized anxiety disorder	70	10	10	50
Social anxiety disorder	20	5	5	10
Specific phobia	20	5	5	10
Panic disorder	30	5	5	20
Obsessive compulsive disorder	70	10	10	50
Conversion disorder	50	10	10	30
Somatic symptom disorder	60	10	10	40
Illness anxiety disorder	50	10	10	30
Body dysmorphic disorder	10	2	3	5
Anorexia nervosa	5	1	1	3
Bulimia nervosa	5	1	1	3

Substance use disorder	70	10	10	50
Paranoid personality disorder	5	1	1	3
Schizoid personality disorder	5	1	1	3
Schizotypal personality disorder	5	1	1	3
Antisocial personality disorder	5	1	1	3
Obsessive personality disorder	5	1	1	3
Histrionic personality disorder	5	1	1	3
Borderline personality disorder	10	2	3	5

Clinical case log (multiple pages)

(Under each case insert a number of rows equal to the no. of cases required)

Case 1			
Level of participation	Date	Location	Signature of supervisor
Case 2:			

Level of participation:

Plan and carry out

Carry out

Carry out under supervision

The candidate must have the ability to conduct the following skill (assessed by the supervisors staff):

-Be able to perform specialist assessment of patients and document relevant history and mental state examination on culturally diverse to develop an individualized assessment and treatment plan through the following steps:

a- Eliciting a complete clinical history, including psychiatric history, that identifies the main or chief complaint,

the history of the present illness,

the past psychiatric history, medications, general medical history,

review of systems,
