## **Introduction about the program**

**Studying in the accelerated program in nursing, Faculty of Nursing, Mansoura University, allows those who have a bachelor's degree from educational systems other than nursing to join this program, as this program is designed to cover an abundant amount of material in a short period of time, 24 months (six semesters), in addition to compulsory training. The privilege is twelve months per calendar year.**

### **\*Continue introducing the program**

**This program is considered one of the innovative methods of nursing education that is gaining momentum internationally, as this program depends on previous educational experiences and the transfer of individuals with bachelor's degrees in other specializations to nursing, which helps transform the professional path and opens new fields of employment and also contributes to solving the problem of unemployment. .**

## **Objectives of the accelerated program**

The intensive program aims to:

- Meeting the community's needs for qualified nurses who contribute to solving the problem of nursing shortages
- Providing new career paths to achieve community development
- Providing solutions to the problem of unemployment by creating a nursing education path based on different sciences

## **Follow the goals of the accelerated program**

- Helping graduates of other educational systems to obtain a degree in nursing and change their career path
- Strengthening the links between different sciences and nursing sciences, which contributes to the creation of environmental sciences that help meet the needs of society
- Developing the nursing profession by graduating cadres with different scientific backgrounds
