## Participation of the Community Health Nursing Department in the faculty's celebration of obtaining the renewal of accreditation

2020-2021

## Health awareness of the Corona virus for students in university cities at Mansoura University

The Faculty of Nursing has organized awareness campaigns by the Department of Community Health Nursing, under the supervision of Dr. Sahar Soliman in several university cities (Al-Aml-Zahra-Gehan) seminars to educate students by their peers trained by faculty members in the department Dr. Fatma El-Emam, Dr. Mohammad Mustafa, Dr. Narges Fathi visited the City of Al Aml and another team consisting of Dr. Rania Gad, and Dr. Nagwa Nabih, Dr. Rehab Al-Hoda visited Madinat Al-Zahra and another in the city of Gihan, and it consists of Dr. Mona Emad El-Deen dr. Asmaa Ahmed, Dr. Maha Mubarak, Dr. Eman Saad.

These teams, which numbered 65 students and a faculty member in the cities, were received by Dr. Mohamed Abdel Moneim Abu Al-Naseer - Director General of the University Cities, Ahmed Abdel Basir, Vice President of Housing City of Al Aml, Abeer Azmy - Head of Supervision in the City of Zahra, and Amina Abu Al-Hassan Abdel Aziz - Head of the period Evening in Al-Zahra City, Nisreen Muhammad Lotfy - Supervisor of Othman Bin Affan and Najwa Ibrahim Building - Supervisor of Omar Bin Abdulaziz and Randa Al-Saeed Building - Supervisor of Abu Bakr Al-Siddiq Building.

The three teams carried out health awareness inside the University City restaurants while the students were eating lunch, and the number of attendances ranged between 50-100 male and female students in each University City due to the travel of most students due to the official Thursday holiday due to bad weather conditions.

This awareness revolved around introducing the new Corona virus and its symptoms such as fever, coughing and shortness of breath, and also addressed the most important ways to prevent the virus, which are washing hands with soap and water regularly, covering the

nose and mouth when sneezing and coughing, cooking meat and eggs very much, avoiding direct contact with anyone who shows symptoms of respiratory diseases. Methods for disinfecting surfaces, as well as some tips when suspected symptoms of infection appear, such as wearing a mask, heading to the nearest hospital, and contacting health with hotline numbers at Student Hospital for Students, University Hospital, and emergency for university workers and Ministry of Health hospitals for civil society

Virus awareness brochures were used by the university to be distributed to students and the outside community by students and their families. Thus, the university, with its thousands of students, is a focal point of the family and community health awareness

This came within the university's plan to manage the crisis and raise health awareness of measures to prevent respiratory viruses, the emerging corona virus, how to identify its symptoms, and ways to prevent it, Under the patronage of Prof. Dr. Ashraf Abdel Basset, President of the University; Prof. Dr. Mahmoud El-Meligy, Vice President of the University for Community Service and Environmental Development; Under the leadership of Prof. Dr. Amina Al-Nemer, Dean of the College.

## **Medical Campaign and health awareness of the Corona virus at the faculty of Nursing**

Continuing medical campaign and health awareness of the Corona virus at the Faculty of Nursing - Mansoura University

Medical campaign continues at the Faculty of Nursing, Mansoura University, to detect diseases of pressure, diabetes, obesity and osteoporosis, health awareness of the emerging corona virus and how to identify and prevent its symptoms, with the support of Prof. Community Service and Environmental Development, under leadership of Prof. Dr. Amina El-Nemer - Dean of the College, Prof. Dr. Wafaa Fathy - Vice Dean for Community Service and Environmental Development, Prof. Dr. Wafaa Gamil, Vice Dean for Education and Student Affairs, under the supervision of Prof. Dr. Sahar Soliman - Head of the Community Health Nursing Department, coordinated by Dr. Nagwa Nabih and Dr. Narges Fathi, and implemented by a group of fourth-level students

The Department of Community Health Nursing measured pressure, sugar and body mass index for all employees of the faculty and organized an awareness session for the administrative staff to raise awareness of the Corona virus. The session dealt with introducing the new virus and its symptoms such as fever, coughing and shortness of breath. The nursing team also dealt with the most important ways to prevent corona virus, which are washing hands with soap and water regularly, covering the nose and mouth when coughing and sneezing, cooking meat and eggs well, and avoiding direct contact with anyone showing symptoms of respiratory diseases from coughing and sneezing; In addition to clarifying some important tips when suspected symptoms of infection with the virus appear, such as the need to go directly to the nearest hospital, contact Health 937, and wear a medical mask
