| This course aims to enable students to demonstrate high technical skills in caring for critically ill patients with cardio-thorax surgery and/ or open-heart surgery including chest physiotherapy, thoracic cavity management and respiratory monitoring, as well as to develop leadership skills that are required in such department. | ٢- هدف المقرر: |
| | ٣- المستهدف من تدريس المقرر : |
| — | أ- المعلومات والمفاهيم: |
| B1. Differentiates between pneumothorax and hemothorax B2. Identify principles of cardiopulmonary bypass B3. Analyzes the different factors that affect cardiopulmonary bypass B4. Compares the observed environmental factors with preoperative phase B5. Analyzes the diagnostic studies before operation B6. Identify how to teach patient before procedure B7. Identify how to assessment patient after surgery | ب- المهارات الذهنية الخاصة بالمقرر: |

| | |
|--|--|
| <p>C1. Assess factor affecting cardiopulmonary by pass</p> <p>C2. Assess cardiac status before and after surgery</p> <p>C3. Assess the values, preferences of, and aggregate</p> <p>C4. Record medical data for the patients before and after surgery</p> <p>C5. Assess pain sites and management</p> <p>C6. Assess wound and demonstrates wound care</p> <p>C7. Determine the effectiveness of cardiac output through clinical observation and routine measurement</p> <p>C.8 Ensure adequate gas exchange</p> <p>C9. Record the observation of nursing diagnosis for cardiac surgery patient</p> | <p>ج- المهارات المهنية الخاصة بالمقرر:</p> |
| <p>D1. Develop a shared vision and common goal for the team</p> <p>D2. Define member roles and responsibilities</p> <p>D3. Involve with all team members in assigned activities</p> <p>D4. Works towards achievement of the group's learning goals</p> <p>D5. Accept conflicts and diversity</p> <p>D6. Shows ability to change his/her point of view in light of new information given or obtained</p> <p>D7. Develop a plan to fulfill learning needs</p> | <p>د- المهارات العامة:</p> |
| <p>E1. Shares information, scientific materials and experiences with colleagues.</p> <p>E2. Establish a professional relationships with colleagues, less experienced nursing care providers and nursing students</p> <p>E3. Demonstrate consultations and peer educations for colleagues, less experienced nursing care providers and nursing students.</p> | |
| <p>Unit I: Introductory Session</p> <ul style="list-style-type: none"> • Concepts of cardiothoracic surgeries <p>Unit II: Cardiothoracic interventions</p> <p>1. Percutaneous coronary management technique:</p> | <p>٤- محتوى المقرر:</p> |

| | |
|--|--|
| <ul style="list-style-type: none"> • PTCA • CABAG • Percutaneous balloon valvuloplasty <p>2. Circulatory support therapy</p> <ul style="list-style-type: none"> • Intra-aortic balloon pump counter pulsation • Mechanical circulatory support <p>3. Management of dysrhythmias</p> <ul style="list-style-type: none"> • Radiofrequency catheter ablation • Implantable cardioverter defibrillators <p>Unit III: preoperative nursing care of the patient undergoing cardiac surgery</p> <ul style="list-style-type: none"> • Initial assessment • Diagnosis studies • Medication • Preoperative teaching • Chest physiotherapy <p>Unit IV: post cardiac surgery</p> <ul style="list-style-type: none"> • Restor cardiac out put • Maintain patant airway • Care of the wound and mangement pain • Thoracic cavity management (Chest tube) | |
| <p>1-Small group work</p> <p>2. Clinical guideline</p> <p>3. Standardized case study (hospital training)</p> | <p>٥- أساليب التعليم والتعلم :</p> |
