

Professor Dr. Fawzia Al-Sayed Abu Saad
Head of Pediatric Nursing Department

After Greetings,

Upon your directives, Plan B. Practical Pediatric Nursing Level III. Get this result from getting his chance to get his chance to get his chance to get his chance to get this score. Accordingly, the following was agreed upon: Practical training for students in these departments (intensive care unit - dialysis unit - neonatal unit - children's unit at the oncology center) will be canceled. Training is limited to the following sections (endocrine unit - heart unit - outpatient clinics - surgery department - neurology department) Compensating students for the canceled training places as follows:

- With explanations and practical videos in the college labs, and also uploading them on the students' electronic platform
- Conducting interactive sessions for students online to focus on the places of practical training that have been canceled
- The Egyptian Knowledge Bank also supports students with scientifically rich videos that compensate students for practical training in the places that have been canceled.

Attached is your honor, the distribution of members to the places of practical training in the hospital and laboratories in the college, the distribution of student groups in the Department of Pediatric Nursing to the places of practical training in the hospital, the distribution of interactive sessions online for students and the grades of the practical course based on the emergency modifications
