

Clinical Pharmacy Program

(Clinical Pharmacy-Pharm D)

Program vision

Scientific excellence and continuous development to serve the curative health system and reach a prominent position globally in the field of clinical pharmacy.

Program message

Preparing pharmacists with professional ethics and qualified with the latest concepts of pharmacy and curative care that enable them to contribute to the development of pharmaceutical industries and raise the efficiency of the pharmaceutical care system at the local and regional levels in hospitals and private pharmacies by providing pharmaceutical services at a professional skill level in public and private pharmacies, factories, pharmaceutical companies, and control laboratories. Pharmaceutical and food analysis, in addition to working in the field of media and pharmaceutical marketing, and actively participating in scientific research through research centers and universities to serve the community.

Program Goals

- Focusing on the role of the pharmacist in providing appropriate health care to the patient inside and outside hospitals through following up the medication regimen for him, studying the principles of clinical drug kinetics and their applications in treatment in different disease states, and finding appropriate treatment regimens in cooperation with the treating physician, which results in improving health care for patients and reducing risks and drug interactions.
- Graduating a Distinguished Alumni of Mansoura's University, who is eligible to work in public and private pharmacies, pharmaceutical factories and companies, drug control laboratories, food analysis, and work in the field of media, marketing, research, and universities.
- Increasing the competitiveness of program graduates at the regional level through study and training programs.
- Participation in community service, environmental development and providing a tangible economic return through rationalizing the use of medicines in hospitals.
- Commitment to achieving quality standards in pharmacy education through interactive education and attention to self-learning.
