RESEARCH EXPERIENCE AND INTERESTS

Medicinal Chemistry	I am experienced over than 15 years in designing and developing synthetic routes to different small organic molecules and heterocyclic compounds, also I have good experience in microwave assisted reactions. Experience in the use of modern chromatographic and spectroscopic techniques (ability to operate and interpret spectra from NMR, FTIR, HPLC, UPLC and MS instrumentation) Mass fragmentations using Ion trap, MALDI and DART instruments.
X-ray Crystallography	Structural and biochemical studies of enzymes; Cloning, expressing and purifying of the MERS-CoV papain-like protease (PL ^{Pro}) enzyme with different inhibitors and we submit a patent under title of “ Benzimidazole sulphides as papain-like protease (PL ^{Pro}) inhibitors in Middle East Respiratory Syndrome Coronavirus (MERS-CoV)” Crystal structures of inhibitor complexes of various proteins I have a great experience more than 6 years in collecting solving data for small molecules and complexes using SMART APEX II and D8 venture instruments even with disorders or twins. I attended training in Friedrich-Alexander Universität Erlangen-Nürnberg Germany in 2010 and also in 2014 and in Florida, US in 2016. I am member of the World Directory of Crystallographers of the IUCr (http://www.iucr.org/) by solving and make deposition to more than 450 new crystal structures.
Molecular Biology	I am experienced in standard techniques including (I am working as part-

	time researcher in King Khalid University Hospital for four years): DNA extraction, primer selection, PCR, biology gel electrophoresis and DNA sequencing. I have very good knowledge on biology and microbiology.
Computing	I have a good level of computer literacy. I am competent in molecular modeling programs Molegro, MOE and hyperchem as well as basic chemistry programs ChemOffice and MarvinSketch and many crystallographic programs including APEX2, SMART, SAINT, SADABS, XPREP, SHELXTL, XP, PLATON and pubcif. Also, I have good experience in GAUSSIAN 09 program in DFT and other theories.
Communication	I have excellent communication skills, and I enjoy public speaking. I represented many scientific presentations to my peers as well as end-users and the general public. I have a high level of written communication skills including the ability to write clear, concise reports and proofreading of scientific articles. I have worked on team projects at University.
