Experimental animals in Research

Proposed Technique	Animal Type, Subjects & Materials of Research			
	Type	Subject	Materials	
Invasive technique	Domestic animals	Adult male	Cells & Tissues	
Non-Invasive technique	Wildlife animals and emigrating birds	Adult female	Fetal Tissues	
Others	Laboratory	Young male	Biological Fluids	
	Marine life	Young female	Others (specify)	

Ethical Guidelines to Conduct Research on Animals

	ETHICAL CONSIDERATIONS	Yes	No	Non Applicable
1	A clear Scientific purpose is presented			
2	The purpose is justifiable to use animals			
3	The number of animals will not exceed the requirements of research			
4	The process will provide unnecessary pain or discomfort			
5	If chronic pain is expected , by the end of experiment the animal will be sacrificed using approved method of euthanasia القتل الرحيم			
6	If there is surgical procedure : anesthesia, antibiotics and postoperative care will be applied			
7	The same animal will not be the subject of more than one experimental protocol			
8	Disposal of sacrificed animals will be consistent with health and environmental concerns
