Renewable Energy and Sustainable Development

An International Refereed Journal

ISSN: 2356-8518

Dear Colleague,

You are cordially invited to submit a manuscript for possible publication in **Renewable Energy and Sustainable Development (ISSN: 2356-8518)**, a peer-reviewed academic journal, published APC the official publishing house of AAST; one of the leading engineering and technology institutions in the MENA region.

Renewable Energy and Sustainable Development (RESD) is a biannual international peer-reviewed journal which presents a global forum for dissemination of research articles, case studies and reviews focusing on all aspects of renewable energy and its role in sustainable development. The topics of focal interest to RESD include, but are not limited to, all aspects of wind energy, wave/tidal energy, solar energy, as well as energy from biomass and biofuel. The integration of renewable energy technologies in electrical power networks and smart grids is another topic of interest to RESD. Experimental, computational and theoretical studies are all welcomed to RESD.

RESD has an outstanding editorial board of eminent scientists, researchers and engineers who contribute and enrich the journal with their vast experience in different fields of interest to the journal. The journal adopts a liberal Creative Commons **CC BY-NC-ND** copyright policy which preserves the copyrights of published materials to the authors and protects it from unauthorized commercial use or derivation.

**Authors are cordially invited to submit their manuscripts for possible publication in RESD via the online manuscript system available after a standard user registration at the journal homepage.**
