

Mansoura University
Faculty of Specific Education

**The internal regulations for the bachelor's degree
at the Faculty of Specific Education in Mansoura
and its two branches in Mit Ghamr and Minyat al-Nasr**

2018 - 2019

The internal regulations for the bachelor's degree at the Faculty of Specific Education in Mansoura and its two branches in Mit Ghamr and Minyat al-Nasr

Faculty vision

Teaching and research excellence locally, regionally and in the Arab world in order to achieve sustainable development and meet the needs of society.

Faculty message

Providing an advanced educational and research environment to prepare the distinguished qualitative teacher for pre-university education, through the development of academic programs, and the provision of specialized consultations and community services.

Clause 1 - Faculty Strategic Objectives:

- 1 - Developing the teaching and learning system, and providing a distinguished learning environment
- 2 -Upgrading the postgraduate studies and scientific research system.
- 3 -Developing a system of community services and activities.
- 4 -Developing the administrative system.
- 5 -Establishing the Faculty's quality system and obtaining accreditation.

Clause 2 - Scientific departments in the Faculty:

The Faculty includes eight scientific departments: educational and psychological sciences - art education - music education - home economics - computer education technology - educational media - educational theater, distributed as follows:

1-Department of Educational and Psychological Sciences and includes the following main specializations:

- A. education basics.
- B. Curriculum and Instruction.
- C. Educational psychology and mental health.

2 - Art Education Department and includes the following major specializations:

- A. Painting and Drawing.

- B. Handcraft.
- C. Decorative Design.
- D. Metal work.
- E. Sculpture.
- F. Printing.
- G. Ceramic.
- H. Texture.
- I. Wood work.

3 - Musical Education Department It includes the following major specializations:

- A. Theories and music composition.
- B. Arabic music.
- C. Solfeggio and motor rhythm.
- D. the performance.

4- Home Economics Department and includes the following major specializations:

- A. Nutrition and Food Science.
- B. textile and clothing.
- c. house management.

5 - Computer science Department and includes the following main disciplines:

- Uses of computers in education.

6 - Education Technology Department. It includes the following major specializations:

Education technology.

7 - Educational Media Department. It includes the following main specializations:

- A. School press.
- B. Educational radio and television.

8 - Educational Theatre Department. It includes the following major specializations:

Educational theatre.

Clause 3 - Academic Sections:

The Faculty of Specific Education includes the following student Sections:

- **Art Education Section**

- **Musical Education Section**
- **Home Economics Section**
- **Computer teacher section**
- **Education Technology Section**
- **Educational Media Section**
- **Educational Theater Section**

The admission of students or the suspension of admission to the aforementioned courses is based on the decision of the University Council.

Clause 4 - Academic degrees

The University Council grants, at the request of the Faculty Council, a bachelor's degree from one of the Faculty's courses.

Clause 5 - Duration of study

The duration of study to obtain a bachelor's degree is four academic years divided into two semesters.

Clause 6 - Enrollment conditions, study and examination system

1- A student must obtain a bachelor's degree in one of the specific education disciplines, in addition to the general conditions stipulated in the executive regulations of the Universities Organization Law, as follows:

A- Obtaining a high school diploma or its equivalent in the same year of enrollment.

B - Passing the aptitude tests held in the disciplines that require this in accordance with the rules decided by the Universities Admission Coordination Office.

C- Passing the personal test decided by the Faculty Council.

D - To be medically fit in a way that proves his suitability to pursue studies and carry out work responsibilities in the field of teaching.

E - Aptitude tests and personal tests shall be held in sessions in accordance with Article (290) of the Universities Organization Law.

F- Students are required to be admitted to scientific departments as follows:

-Section of Art Education: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas accept the five-year system and diplomas of technical institutes, provided that they pass the aptitude tests.

-Section of Musical Education: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas accept the five-year system and diplomas of technical institutes, provided that they pass the aptitude tests.

-Department of Home Economics: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas accept the five-year system and diplomas of technical institutes.

-Computer Teacher Section: Students who have obtained a high school diploma in the scientific section (mathematics » science) and technical diplomas accept the five-year system and diplomas from technical institutes.

Education Technology Section: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas are dismissed from the five-year system and diplomas from technical institutes.

-Section of Educational Information: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas accept the five-year system and diplomas of technical institutes.

-Section of Educational Theater: Students who have obtained high school diplomas in both scientific and literary Sections and technical diplomas accept the five-year system and diplomas of technical institutes, provided that they pass the aptitude tests.

G - International students are accepted according to the regulations of Mansoura University in this regard, in accordance with the rules and conditions set by the Supreme Council of Universities.

2-The Faculty Council, after taking the opinion of the councils of specialized scientific departments, determines the scientific content of each course.

3- For the student to enter the exam in any course, he must have met an attendance rate of no less than 75%.

4- Training in teaching (field training) takes place for all people for male and female students of the third and fourth years in schools affiliated with the Ministry of Education or elsewhere, one day a week throughout the year and for a continuous week at the end of the second semester, and the Faculty Council determines the date for related field training. Male and female students are taught four hours a day, and the responsibility of supervising the training of students to teach is entrusted to the Department of Educational

and Psychological Sciences in the Faculty in coordination with other scientific departments.

e - The score for the field training course in each of the third and fourth divisions is calculated by one hundred marks for each academic year and is distributed as follows:

- Grades for work for the year (70) degrees divided into (10) for the school principal, (30) for the external supervisor (from education), (30) for the internal supervisor (from the Faculty or from education).

Oral scores (30) are set by a committee from the Department of Educational and Psychological Sciences.

6 - It remains for the student to repeat the field training course, even if he was successful in all the other courses in the study group in which he failed, provided that he repeats the field training course in addition to the other courses he fails in it only, and the rest of the provisions of the field training regulations applicable in the Faculty are applied. Education, Mansoura University.

7 - The student studies the graduation project for four hours throughout the year in one of the majors mentioned in the plan for the fourth year.

8- The student is transferred to the upper division if he succeeds in all the courses or fails in no more than two courses, and the student takes the exam in what he failed in with the students of the division in which the course is taught. As for the students of the final division who fail in no more than two courses, they will have a role A second in the month of October of each year, and if they fail repeatedly, they will be tested in what they failed in with the students of the semester in which this course is taught until they succeed in what they failed in.

9 - The student is considered to have failed the course in which he obtains a score of less than 30% of the written exam score (or the applied exam if the exam is limited to the applied exam only).

10 - The student's success, whether in a single course or in the total number of courses, is estimated by one of the following estimates:

- Excellent, 85% or more of the total marks.
- Very good 75% to less than 85% of the total marks.
- Good 65% to less than 75% of the total score.

- Acceptable 50% to less than 65% of the total marks.

The student's failure is assessed by one of the following two estimates:

- Poor 30% to less than 50% of the total score.
- Very weak, less than 30% of the total score.

Section 7 - Evaluation

The student is evaluated in theoretical, practical or applied courses based on the following elements: semester work (individual and group research work » quiz / oral and applied exams), and a written exam for the course. Grades are distributed according to the nature of each subject, and the grades for year and oral work are equal. .

- For the graduation project (40 marks) for a year's work, (60 marks) for the oral discussion through tripartite committees, and the project score is added to the cumulative total and is not considered a failure or success subject.

Honors degree is awarded to a student who has obtained at least a very good grade in all academic levels.

Section 8 - Evaluation Committees

The student is evaluated in theoretical exams by triple correction committees of faculty members, and a fourth corrector may be added in the fourth year): students are also tested in the oral and applied side by triple committees of faculty members in sessions, and the Faculty Council determines the beginning and end of the applied and oral exams.

Item 9 - Teaching hours

The theoretical hour is calculated with one credit hour per week, and the practical lessons and practical applications that range from 2-3 hours per week are calculated with one credit hour.

Clause 10

It is permissible to amend some texts of the articles mentioned in these regulations in case of necessity based on the proposal of the Faculty Council and the approval of the University Council without referring to the Sector Committee in a manner that does not conflict with the Law of Organizing Universities and its implementing regulations.

Item 11 - Coding.

The course coding system in the current list follows the system used by Mansoura University. The course codes in the current list are as follows:
